DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 6-10 are rejected under 35 U.S.C. 102(a) as being anticipated by Bolte et al for the same reasons as urged in the second office action.

Response to Arguments

Applicant's arguments filed 5-20-02 have been fully considered but they are not persuasive. Applicants argue in the third full paragraph on page 1 of their response that "Bolte et al ... discloses ... a coating composition comprising (a) ... polymer, (b) ... and/or ... (c)". The examiner does not agree. See Bolte et al at col. 6, lines 35-61 where it is disclosed that the hot melt may be (a), (b) or (c). So the hot melt is not limited as applicants suggest. Applicants further argue in the first full paragraph on page 2 of their response that "Bolte et al ... used as component (a) have a melting point above 100 degrees C". The examiner is not convinced by this argument since the reference hot melt is not limited to materials from (a) as suggested above. Applicants further argues in the paragraph bridging pages 1 and 2 of their response that "Bolte et al does not ... provide a non tacky protective coating". The examiner is not convinced by this argument since Bolte et al is in fact not interested in a tacky coating. See col. 21, lines 50-68.

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
